DO WE SHIP KITS!

You bet we ship a lot of Kits! The picture below is of 8 x WC-8-DM Magnetic Particle Inspection Kits. These particular Kits consist of our WC-8, 12 Volt DC Yoke (w/Battery and Charger) combined with our W-DM (Deluxe Dry Method Kit), all fit in our standard #4 Case. Like the components inside, the part numbers match the contents.

These Kits were boxed individually, so when the pallet arrives to the distributor, individual boxes can quickly be shipped to the end user without repacking!
