3 Models of each Pit Gauge

Western Instruments' Dial Pit Gauges, such as a Basic Pit Gauge, can actually be 3 different Models. Our 3 different Dial Indicators are interchangeable, and fit the same "Blade", therefore, we can offer;

- *Imperial* Basic Pit Gauge (N88-2) or
- *Metric* Basic Pit Gauge (N88-2-M) or
- *Digital* Basic Pit Gauge (N88-2-D)

The Basic Pit Gauge

The same holds true for a Pocket Pit Gauge, where we again can have 3 different models;

- *Imperial* Pocket Pit Gauge (N88-4) or
- *Metric* Pocket Pit Gauge (N88-4-M) or
- *Digital* Pocket Pit Gauge (N88-2-D)

The Pocket Pit Gauge

Thus, in our Range of 11 different models of Dial Pit Gauges, from the *Basic* Pit Gauge through to our advanced Bridging Pit Gauge Systems, there are actually 33 models! Chances are we have a knowledgeable Stocking Distributor in your region, so contact us for assistance with your application, and contact information for a dealer
